I was once you ... seeking and searching for teachers, classes, workshops, dvds, books, magazines, on-line sites - anyone, anywhere to help me find myself in this incredible medium. I wanted to learn whatever I could to advance my art. Sometimes I was elated on what happened in a class, but mostly it lead to disappointment - BUT there were pearls worthy of holding onto and integrating into my work.

It was from that very frustration I created my classes - based on what I needed as a student and didn't get. I took the very best of these opportunities and created my workshops and classes - with an array of techniques in painting in watercolors and as an instructor as well.

You may not know me, but I know you. As a student I understand what you wish to get from a workshop and as a teacher I know how to deliver it. I welcome you join me on an amazing 2 day workshop that will be filled with the best of the best. It will be tangible and is meant to be adaptable to enhance your own work.

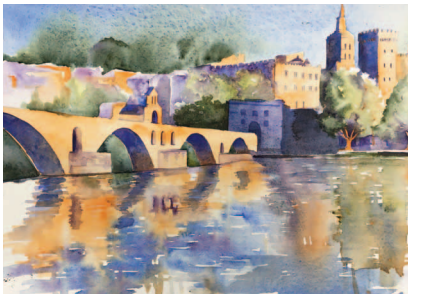

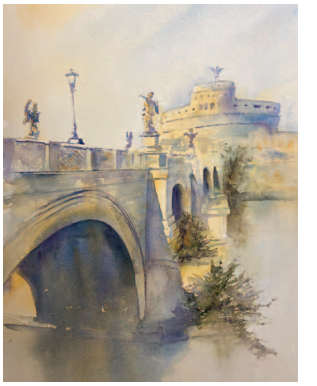

This program is a culmination of techniques I've discovered and practice in every class and workshop:

- Basic supply setup
- Color Wheel - how to use analogous and complimentary colors
- Learn why you get mud paintings
- Color Temperature - light, warmth, cool & shadows
- 2 Magic Ingredients - learn the intelligence of watercolors
- Soft & Hard Edges - where and why
- Develop your Impact Area
- Easy Composition
- Correction Techniques
- Embrace Blossoms, Drips & Splatters

. . . and more

all while painting Skies, Land, Architecure, Water & Reflections

Actual Class Demos / Projects

You will receive my reference photo, my contour drawing and at the end you will have the recording and my final painting to help you along.
